

# TZW SHORT INFO

**The New EU-Regulation for Materials and Products in Contact with Drinking Water**

## What is new compared to the national evaluation criteria documents (UBA)?

- Mandatory certification for all materials and products from 01.01.2027 (Attestation of conformity of hygiene suitability).
- Following EU regulation, migration testing in cold water will be done in chlorinated and unchlorinated water according to EN 12873-1.
- To test for unexpected substances in the migration water, GC-MS screening according to EN 15768 will be conducted.
- Attestations of conformity of hygiene suitability for assembled products can also be attained according to the new guidelines.
  - Attestations of conformity of hygiene suitability will be issued in addition to the type examination certificate.

## How can TZW support you in the certification process of your materials and products?

- TZW is accredited for all necessary testing methods and is well-prepared for the new regulations.
  - Tests of materials according to the new EU guidelines can already be conducted.
  - Testing capacities with regard to the new EU guidelines have been expanded.
- TZW's inspectors are appointed by the certification body of DVGW to conduct inspections in the context of DVGW's certifications (1+-system).
- TZW is in close communication with European certification bodies and test laboratories and is ready to assist with your questions.
