

Support our team in the Water Distribution Department at the Dresden Site as a

Technical employee

What makes more sense than shaping the future of water?

TZW is one of the leading water institutes in the world. Our motivation is to design a sustainable and future-proof water supply for generations to come. From the protection of water resources to drinking water from the tap. To this end, 180 employees develop innovative solutions and support our customers in the water sector. Every day anew, always working in a team with a lot of enthusiasm.

What we offer

- An open working atmosphere in a stimulating environment
- Collaboration within a committed team
- Varied projects in which you can contribute your skills
- State-of-the-art technology and laboratory equipment
- A future-proof job in a non-profit institute
- Flexible working hours
- Fair payment in accordance with the Tarifvertrag der Länder (collective agreement of the federal states)
- Annual bonus payment and company pension scheme

What you can expect

- Carrying out flushing and optical inspections of drinking water distribution systems
- Sampling waterworks, drinking water networks, buildings
- Construction, installation and operation of test facilities
- Involvement in forward-looking research projects
